

PBK 15 (Passive)

OVERVIEW

The PBK™15 is a full range two-way speaker system utilizing a 15" heavy duty woofer and a 14Ti™ titanium compression driver mounted on a medium coverage horn. Its sleek modern appearance coupled with excellent performance offer an outstanding package. The full two-way crossover contains a tweeter protection circuit for good reliability. Power handling is a generous 560W program power. The lightweight yet rugged injection-molded plastic enclosure with molded-in stand mount cup facilitates portable use for live music or PA sound. The rounded profile cabinet has three handles for ease of portability. A black powder coated perforated steel grille provides woofer protection and a professional appearance. Two NL-4 Twist-Lock input jacks are connected in parallel for daisy chaining.
