

Special Chorus 212

OVERVIEW

The Peavey Special 212 combo guitar amplifier features Peavey's patented TransTube® tube emulation technology an all-new 100-watt output power section, on-board reverb and analog chorus, effects loop, and 2x12" Peavey Blue Marvel® loudspeakers. The Special 212 boasts two channels, a Clean channel with 3-band EQ plus Presence control and a Lead channel with 3-band EQ and gain control with footswitchable boost, plus mid scoop and master volume. The Special 212 also features analog chorus with depth and rate controls and versatile spring reverb. Combine these features with Peavey's gold-standard reliability, and the Special 212 is a must-have amplifier.
